

2500 SERIES SINGLE-ACTING

Automatic Meter, Mix and Dispense System

For production Potting, Encapsulating, Molding, or Central Filling of 2-part Reactive Formulations with Abrasive Fillers which settle out of suspension.

STANDARD FEATURES

- Positive-displacement piston metering with positive-ported, 3-way-flow directional valves (NOT check valves) maintains very accurate ratio.
- In-line metering design prevents side-loading when handling wide ratio formulations.
- Single-acting design allows filled materials to be returned to their agitated containers to prevent settling and damage to the metering system.
- No-purge mix/dispense assembly with adjustable valving provides air-free dispensing.
- Abrasion-resistant metering cylinder, seals, and hardware.
